PROFILE

I don't just build websites—I create visually striking and technically optimized digital experiences.

If you're looking for someone who blends creativity and code, I'm the right choice.

With a solid background in graphic design, I specialize in web design and development.

I'm currently open to both freelance and full-time opportunities in the design and web development space. Throughout my career, I've merged graphic design with web development to deliver attractive and functional solutions.

My portfolio includes everything from visual conceptualization to responsive and dynamic website implementation.

While my graphic design experience is extensive, my current focus is on frontend development using JavaScript, React, HTML, CSS, and WordPress.

I am adaptable, committed to excellence, and always ready to take on new challenges and contribute to the success of every project I join.

Available full-time and flexible with time zones.

WEB DEVELOPMENT EXPERIENCE

BoostUP – Digital Marketing • Argentina (Remote)

Web & SEO Designer | Dec 2024 – Present

<https://www.boostup-marketingdigital.com/>

Ref: Ana Funes Aragón – +54 9 351 590 1398

I design and develop websites and e-commerce stores for the agency and its clients using platforms like Wix, WordPress, Shopify, and Tiendanube.

I also work on editing templates with PHP, JavaScript, HTML, and CSS; configuring advertising pixels and tags; automating emails and forms; and connecting payment and shipping platforms.

Team organization is managed using Asana.

This is a freelance position without a guaranteed monthly income. I'm therefore seeking a part-time or full-time opportunity to complement or replace it.

Upnomada • Mexico (Remote)

Frontend Developer | Mar – Aug 2024

<https://upnomada.com/>

Ref: Hiram Cano Díaz – +52 1 951 252 6120

I designed and developed a full website using React.js with three separate areas: for visitors, subscribers, and administrators.

Responsibilities included implementing user registration with email verification, subscription payments via Stripe, and login with Google.

I also developed the flight deals section with sorting and filtering options, created the Itineraries section, user profiles, and the entire admin panel for managing offers and users.

Ascar Software • USA (Remote)

Frontend Developer | Dec 2023 – May 2024

[Project link](#)

Ref: Pablo Kerestezachi – +54 9 3513 98 0612

I designed and developed a logistics platform for US-based companies using React.js.

Key features included shipment tracking, multi-user login, payments, Google Maps API integration, order creation, email notifications, and printable forms.

I led the frontend development of this private project until it was paused in May 2024.

Pro Market Agency • Colombia (Remote)

WordPress Web Designer | Oct 2023 – Jan 2024

Ref: Santiago Gómez – +57 312 6000189

Projects:

- [Valeria Landeo – Respira la vida](#)
- [Juliana Calle – El Club](#)
- [Leidi Cuadros – Rituales de Prosperidad](#)

I created tailored websites for small businesses using WordPress and implemented automation tools and payment gateways.

Grupo 3 Creativo – Mi Butaca • Colombia (Remote)

Frontend Developer | 2023

<https://mibutaca2023.vercel.app>

Ref: Carolina Tobar – +57 318 4916383

Developed a feature-rich React.js platform for an event company, including seat reservations, Google login, user account management, ticket purchasing, and payment processing.
